

## **Printing Patterns from This eBook**

This eBook contains pattern pieces that you'll need to print out to use. To make sure your printed patterns are the correct size, first print this page at 100% and measure the line below. It should be exactly 2" long. If it's not, check your printer settings to make sure there's no page scaling, and then print the page again. If this page prints accurately, then so will your pattern pieces.

To find more information on page scaling, please visit:
